

## PRESS NOTE

### **Gesac, Naples airport management company, awarded the IV National Confindustria “2008 Orientagiovani” Award given to outstanding companies in the field of training**

During the ceremony, recently held in Genoa, at the end of the National Youth, Science and Technology Conference, Gesac, the Naples airport management company, received important recognition: the “**IV National Confindustria 2008 Orientagiovani Award**”. The plaque was given to **Maurizio Castellucci**, Gesac Director of Human Resources, by Confindustria President **Emma Marcegaglia** (see photo).

#### **The Award winner was selected based upon the following motivations:**

*For the significant, relevant orientation activities conducted by this company, located in Southern Italy, within the context of the Naples Unione Industriale two-year project entitled “**Studying companies, companies to be studied**”, its participation in national-level projects (**simulated business training project**) and the creation of on-the-job, corporate training and its constant commitment to cooperating with local schools \**.

Moreover, today at the l’Unione degli Industriali, during the “**XV Day of Orientagiovani held in Naples and entitled “the Winds of Science**” organised by the Union in co-operation with the IDIS Città della Scienza Foundation (with the objective of creating an encounter between local institutions, business enterprises, social organisations and representatives of the world of orientation and training), two representatives of Gesac will be guests (Davide Behar – Training - and Fabio Pacelli – ICT). This conference will focus on training, research and technological innovation in complex companies such as the airport.

---

\*Gesac – Naples International Airport management company – began organising initiatives in favour of the local communities in the areas surrounding the airport – The Programme of Co-operation with Surrounding Communities – in 1998. The objective of this project is to promote and sustain **social, environmental and educations projects** in the areas of: **San Pietro a Patierno, Secondigliano, Miano, S. Carlo all’Arena, Poggioreale and the City of Casoria**. Activities conducted within the context of the Programme of Co-operation with Surrounding Communities are focused on **training, culture, the promotion of sports for the young, environmental protection and, especially, participation in projects aimed at assisting the weakest social levels**. These are the major areas of focus for the initiatives currently underway and for those which have been organised in the past..

**Naples, 28 November 2008**
