⁽⁰⁾ As anticipated during the User Consultation held in October last year, in view of the serious economic crisis that has affected the entire airport sector following the pandemic from Covid-19 and with the aim of ensuring tariff stability to encourage a faster recovery of the sector, for 2021 Gesac has decided to continue to apply the rates of flights "Intra EU" for the flights from/to the United Kingdom, maintaining unchanged the parameter relating to the composition of EU/extra-EU flights underlying the tariff dynamics of the last regulatory period.

⁽¹⁾ Winter: from January to May and from October to December - Summer: from June to September.

⁽²⁾ To calculate the landing and take-off fees of a commercial aircraft: up to 25 tons, the <25 fee is charged, over 25 tons, the >25 fee; for general-aviation aircraft: up to 4 tons, the <4 fee is charged, over 4 tons, and up to 25 tons, the >4 fee, and for aircraft over 25 tons, the >25 fee.

⁽³⁾ The landing and take off fees of general aviation has to be multiplied by 2.

⁽⁴⁾ The first 2 hours are free of charge.
