

Additional services available in Airport: New *drugstore* for passengers opens today

The new drugstore at the Naples International Airport was inaugurated today and is located externally near the Terminal entrance between the bank and the post office.

The new 40m² drugstore, available to all passengers, is managed by pharmacists and specialised personnel. Products available include *over-the-counter medications**, a wide selection of nutritional, nutraceutical and homoeopathic products as well as the best brands of beauty and body care products and an entire line of baby care line.

The opening of this new service, available to all passengers, completes the plan for the commercialisation of airport space based upon the needs expressed by airport users.

Parafarmacia – Open to the Public: 6:30a.m. -10:30p.m. – Phone: 081-78961249

For further information regarding airport services, please consult the 2007 Service Charter which is distributed in the airport and also available at www.aeroportoedinapoli.it;

The network of direct flights from Naples International Airport increased significantly in 2007: **37 scheduled international destinations, 14 domestic destinations and over 20 charter flight destinations. 28 air lines operate from the Naples Airport. As regards passenger traffic, the first nine months of 2007 recorded some 4,452,000 passengers, amounting to a 13% increase** (domestic service rose 15.2% and international service 16% over the figures for the same period for 2006).

**the purchase of these medications does not require a doctor's prescription.*

Naples, 17 October 2007
