ENAC: PROGRAMME AGREEMENTS SIGNED WITH AIRPORT MANAGEMENT COMPANIES OF NAPLES AND PISA

ENAC announces that programme agreements, previously deliberated by the ENAC board of directors, were signed today with SAT and GESAC, respectively the Pisa and Naples airport management companies. The programme agreements, signed by the ENAC Director General Alessio Quaranta and Mauro Pollio, President and CEO of the Naples-based GESAC and Gina Giani, CEO of SAT in Pisa, serve as an instrument of rate regulation for the use of airport infrastructure and allow the ENAC to control the investment and quality plans that the management companies are committed to implementing during the contractual period.

President Vito Riggio emphasised that “We have reached an important milestone despite the amount of time required which is incompatible with the needs of market competition. It is my hope that the bureaucratic procedures required for approval become more rapid in full respect of the prerogatives of all the involved parties”.
